IDENTIFIERS	*Nature

ABSTRACT

Ranger Rick's NatureScope is a creative education series dedicated to inspiring in children an understanding and appreciation of the natural world while developing the skills they will need to make responsible decisions about the environment. The topic of this issue is "Wild & Crafty." It contains a variety of craft ideas related to animal life and the environment. Each craft includes some fun facts about the animal or subject featured in the craft, and a "Branching Out" section with suggestions for how to use the craft and where to find more information about the subject.
